Dr Jenia Meng, aka Zai is the founder of Taoism Network. She created a system of scientific (math and physics) Taoism. It brought fundamental reforms yet retained the essence of Taoism. Zai created a sacred geometry 'Wu-Xing Spiral'. It units Yin-Yang, Wu-Xing, Chinese Zodiac, astrological signs, periodic table etc. Important ideas of her system are listed below, click link for more information

- Tai.JiTu (core ideas of Taoism) is valid.
- However scientifically female is Yang/Sun, male is Yin
- Wu-Xing is 5 major planets of gravity. It is a spiral, not a closed circle
- Zai's scientific bagua/trigram/hexagram naming/sequencing system units Yin-Yang, Wu-Xing etc., improves consistency/sensibility of I-Ching

- Based on the spiral of Wu-Xing energy above, in the context of Earth ecosystem, producers such as green plants are Yang (closer to Sun, more powerful, superior), consumers/parasitic-beings such as carnivores are Yin.
- Dr Zai also made many other local/small reforms such as identifications of new Wu-Xing sets of specific issues

Betty Taylor has been fighting the scourge of domestic violence in Queensland for more than three decades and even she was shocked by the explosive testimonies she heard at an inquiry into police culture.

Key points:

- Leading advocate Betty Taylor is calling for a domestic violence and sexual assault commissioner
- Current officers told the inquiry unconscious bias was a major issue and misogyny "ran wild" in the force
- Tuesday marks the final day of public hearings, with a report to be handed down in October

The streets in front of Natural Garden Woree

A 2022 paper based on Jenia Meng's book "Origins of Attitudes Towards Animals"

61 B/s 11:54 14%

In the fifth section, the Animal Issue Scale (AIS) [16] is used to measure acceptability toward harming animals. There are forty-three questions in the original AIS, representing eight animal issues: use of animals, animal integrity destruction, killing animals, animal welfare deprivation, experimentation on animals, changes in animals' genotypes, harm animals for environmental reasons, and societal attitudes toward animals [harm animals for social issues]. Respondents rate each question on a five-point scale ranging from one, extremely unacceptable, to five, extremely acceptable. A high score on a question indicates a high level of acceptability for the particular issue [56]. Using principal axis factoring factor analysis (S4 File, Missing case analysis, Factor Analysis and Reliability; Tables 3–5), the original 'killing animal' and 'animal deprivation' issues were identified as one factor (Table 3). Thus, the present study reduced AIS to only thirty-one items, conveyed only 7 factors. AIS score is the mean score from all thirty-one items.

Discovered unauthorisedtransactionsto Uber again in my bank statments, 4 since Nov last year, two yesterday

- 2023-02-01 06:55:36

Good morning, I shared a strange letter I got in our local group https://www.facebook.com/groups/woree.creek

- 2023-01-31 14:15:48

Just did an interesting and accurate divination in the Sun. Completely by random numbers. In theory the Sun should make your reading more accurate. I was already sitting down, finished the recycle work today. But the reading ask me go back to the shed to get more stuff. I asked again where in the shed do I get things, it gaves me 87 out 100: I had previous agreement with the divinity to ID positions by 3*3 grids. So 87 is the left back area of the middle back area. If was the postion of an old sofa. I asked is there something under it? Got answer yes. So I went to the shed, lifted it, find many perfect bottles I can reuse. They are washed and ready for raw water now. This is a typical example of divination/dowsing. I had many similar accurate experience. You can just do it with a paper dictionary, using my technic here. Book a consultation with me for details

- 2023-01-31 12:44:11

Had dream I bought and moved into an apartment in tall building this morning (2nd time bought property in dream recently). Looked like in big city of Asia... And after waking up I dug into my recycle pile in the shed, found matching (not original, different color) caps for many drinking bottles, so I could bottle more raw water for https://water.GoodEasy.info . I turned the pile upside down. Now everything is more organised: I know what are in the stock

- 2023-01-30 11:19:02

Rain season is full of surprise. I found 16 mangos germinated in the composting area. They are in recycle pots now. I made them from takeaway boxes: cut into two halves by scissors; insert back; fix by two staples. You can do it too. Recycle feels awsome, rubbish reduced, value created https://cca.goodeasy.info

Sexism racism at work: intellectual advantage are suppressed in Asian women, media/films reinforce the stereotypes, they want you run a restaurant, grocery store, laundry business, work at nail salon. Not being a scientist, a philosopher

I worked for animal rescue organisations for years, often got bitten by animals I saved. It won't usually bother me. But the defamation is long term and repetitive

- 2023-01-16 03:51:03

This series is not only about my ex, the defamations are from different sources. And it is common for male energy to defame female energy

- 2023-01-16 03:28:55

Another reason I did not expect his attack is we worked on a film of ethics together. Apparently the MLM scheme had more influence on his mind

- 2023-01-16 03:26:46

Of course, there are multiple times I caught my ex cheating. I didn't mention because they are not important compare to his predatory defamation/attack to me. This is not something you should do to anyone. He also has been studying cult (mind control) skill of series killer online while he was in the MLM

scheme of the Cobra group https://en.m.wikipedia.org/wiki/The_Cobra_Group

- 2023-01-15 21:47:43

Just noticed something recently: when my ex called police on me 2016, the police asked the landlord of the house (Westcourt) over the phone. I got robbed in my neighborhood Woree last year, in the following days, a group stopped the traffic of footpath next the robbery scene to do renovation. I had a word with a guy in the group, asked when is this going to finish. Now I think he looks like the landlord. I almost forgot about him and his look. If it is the case why is he there? A neighbor in Westcourt once told me he sold the house not long after the dispute, and there is rumor about his other house. The robbery was strange on many levels. When I was living in his house, strange things happened too: for example, my garden pot got cutting mark on the edge

If you are interested in personality reading by astrology, I was born in May as a "premature" baby. So my sign is probably a mix of Taurus and Gemini, conception in hot weather. Fire element with some Water flavor. Of course you have to see other dimensions such as birth year and hour of the day etc, which are more important. I can do reading for you like these, I charge a lot

The private image abuse was not so simple as my ex took video without my permission. The context is I trusted our relationship and I thought he is a partner at the time. The video is taken at our private home while I was working for us. He suddenly started to record me at my bad time, it is already out of ordinary, in addition, he narrated the video with lies. It was a clear incitement of fight and display of defamation. I was shocked. Still, I was only chasing him for taking back camera. It was unsuccessful. I don't remember get chance to touch him. Since it was all recorded, the video platforms can see what was happening. They were doing the right things of blocking the videos. I had plenty bad/crazy photos of him (he agreed to take those), never share them with others, because this is basic respect to people, not to mention your partner - I don't want people think he is ugly. He was very calculated for the betrayal.

I said earlier, the predatory abuse from my ex, helped me see through the lies of patriarchy/male-energy better. That's how I invented the sacred geometry (spiral) after holy ghost removed him from my life. Holy ghost wants me to serve something important. Join my church https://m.GoodEasy.info

I shared the DV experience of this blog in a DV FB group twice, but the admins removed/censored it. The reason they give is "Format extremely difficult to understand. Please post your experience as a standard post so all our members can navigate it easier". Well, if it is difficult to read, they can tell me in reply. Why do they need to remove the posts, I think the posts are understood. This is my general feeling of dealing with DV these years, subtle bias makes the mainstream DV services are mainly for white women. One of the first questions one DV service asked me was if my ex is rich, as if it is the case they will not deal with it

There are many rumors about my relationship with my ex. My family sponsored my ex when he first came to Australia. The money my ex gave me from our joined bank account after he evicted me is less than 1K AUD. I lived minimalist lifestyle when I was with him. He did not buy me house, it is the money I got after our seperation, largely from my family. And we had agreement I work from home for our joint projects (to save cost) when we were together. What actually happened in the incidence in the tweet: my ex abused me, evicted me from our share house illegally with his gang without formal notice. He took our shared properties, I went back asking him return my stuff and criticized the pyramid selling scheme he joined (search appco marketing class action in Google news, this is their group) in self defense. He called police for this. There is no tresspassing on my side, as showed in my clean police check. And there is documented domestic violence on his side: illegal eviction; online defamation by private video; false claims against me to police etc.

I think this is the reason barrel was mentioned in the divine message below😅

- 2022-11-25 13:45:12

Mentioned the scent of compost barrel of organic rubbish in our garden (original: 有机垃圾堆肥桶) on my Wechat (ID: tzwl_au) Nov 20th. It was a good pun if you can read Chinese well - Basically you can split the sides of a character when you read. And characters in a sentense can form different words depend on your perspective. So the pun can also mean: There are some Woods (the Wood element in my theory), standing bird soil, and fat barrel in our garden (split to:有木几土立土及土隹肥桶)... This is the type of reason you need to study a foreign language well. Software translation cannot help (I don't mean my divine intelligent software)

The divination asks me to write about dealing with difficult time, since many thought I was in because of my previous relationships. To be honest, I feel so called "difficult" time are good time (of freedom): your spirit is strong. Things run in cycles. The nature/Tao has own pace. There are crazy (hierarchical) people who can ruin any collaborative relationship between people, such as seller and buyer relationship. They want to be the slave master. But, usually the relationship can be replaced. They should just learn to be equal. I often say: dominantion is dependency

In case you did not know, it was boy because cold is Male energy, warm is Female energy

---

- 2022-07-05 07:43:05

Look into my spiral chart, it is also life cycle. Position of elements on the spiral is attribute of the phase, for example, the cycle/spiral has Water element near the start: baby is high on water. You can also predict other things based on the chart. For example Metal energy is strongest in the middle of cycle. Metal is your bones, search "bone density middle age" online to verify it

---

- 2022-07-05 07:28:53

If you did not understand the link between boy baby and cold rainy day search this online "body water percentage baby"

So I turned on heater to balance the weather. Many misunderstood wu-wei. It is not exactly do nothing. It asks you to go with the flow of the universe to increase efficiency. Many people don't flow waste lots of time/resource but get nothing. So in the context, a simple message is don't do.

- 2022-07-04 12:38:54

It mentioned boy baby temperature is it about the cold heavy rain right now?

- 2022-07-04 12:26:31

Yeah the elements are not absolute class, they can mix and interact with each other. Everything has the elements more or less. For example there is super critical fluid (lookup online) which is a mix of the Fire and Water 😂

- 2022-07-04 12:23:06

Divine:might interaction perception arrange boy baby temperature mention efficiency (See ED.GoodEasy.info)

Bit more difference of Water and Fire energy in my unity system (see links on the top of the blog). Both are soft, without "order", can flow, opposite to Metal and hard Wood. But Fire goes up (spirituality/heaven), Water goes down (materalism).

- 2022-07-04 11:39:37

It was two seperate stories. I was talking to a big guy about my research. In the middle of a disagreement, he wants to give me a lesson. I politely told him I had 4 degrees, I don't usually take lessons. His response was anger, throw away my paper saying he does not care. Well why should I care about opinion of a sexist/rude person. Then I was talking to people about my experience of buying unit years ago, I recalled there was a rude man, a property manager who was trying to give me lesson too. Dear patriarchy, I am egalitarian , I have gone through your degree/hierarchy, please do not use it to bully me, you are not above me.

no change of position this time under divine instruction , search "DrEco jealousy " in FB for old posts

---

- 2022-06-25 09:26:23

Today's episode: Jealousy is a common root of defamation. The cartoon is randomly created by our divination software. Reading: The chick's unity research is documented (see the pin links for the leading charts). Mushroom is a creature between animal and plant, growing fast. It is mentioned previously in my animation "Handcart fragments rocky mountain". In the third frame, the hamster is actually thinking about himself (in the second frame) being "straggled" because of jealousy. The chick is to the left side of the scene. U can hardly understand the charts if U cannot see the complete picture (of the universe). Still the chick's speech bubble looks like TED talk in the scene. My strength of data and information visualization is old. It was documented in my publications, such as the population study "Origins of attitudes towards animals" .

Not all plants are equally woody (percentage of Wood in total mass). Tall trees, such as pines are usually more woody compare to short grass, ground cover or sea weeds. As you can see from my element charts, the elements are associated with altitude. You can learn these types of insights of unity in my courses https://mmth.goodeasy.info (intermediate and advanced)

I offer course of the unity at https://mmth.goodeasy.info

You will learn

- Practicle things, for example, the green color of leaves are Soil(yellow)+Wood(cyan/blue) in my seven elements system. So when leaves turn yellow it is about to become/return soil.
- Theoretical things, for example, waveâ€"particle duality in quantum physics is scientific proof and base of paranormal events: everything has two opposite sides, wave/female side and particle/male side. Your wave side is the mind/soul. There is no borders of waves. All waves/minds inferact. https://en.wikipedia.org/wiki/Wave%E2%80%93particle_duality

Earthworm has vision of light, test on earthworms in our garden confirms. Same to plants, you don't need centralized/human-like receptors for senses: for example, eyes to see, ears to hear. This would explains many behaviors I see in plants. Vine plants know where to find distant attachment, vision or similar senses can explain. This is not an argument of ubiquitous intelligence in the universe (because of the holy ghost, everything has souls). It is not an argument against veganism. I've explained in many places online: basically, humans and plants are more natural beneficial to each other because of the difference: many plants can reproduce from cutting, eating leaves, stems and fruits in nature helps plants too. Our garden considers welfare and no-kill of plants too.

What is the difference of story telling, deception and lies? Beware of the original sin of the entertainment industry. My center encourages fact-based media production, such as academic documentary, reality show. Or Arts that are not misleading, such as 2D animation and cartoons

Real faith is voluntary "poverty". Material poverty. If some (Buddhist) monks or charity workers tell you he/she is very rich. Do you think he/she is successful? Or do you think he/she is fake and corrupted? Material is opposite to spirit, yin and yang. More material would cancel out more spirit. Same reason many

doubt fat people are spiritual: got extra material... https://eurasianet.org/obese-politicians-signal-corruption-study-finds https://en.wikipedia.org/wiki/Gluttony 😔
